

Community Wealth Building Project Edinburgh & South East Scotland City Region Deal

Representation from community, social enterprise & third sector groups across the region

Community of Practice

A Public facing portal providing CB opportunities for non-for-profit organisations

Community Benefits Portal

A resource to be developed & shared across other regions in Scotland

CWB Toolkit

Considering best practice, inclusive growth and contribution to the overall City Region Deal activity

Steering Group

Midlothian

A regional approach to accelerate and amplify Community Wealth Building activity across the Edinburgh & South East Scotland City Region

The Community Wealth Building project is made up of partner organisations (Capital City Partnership, West Lothian Council & Go Beyond) who have secured funding through the Regional Recovery & Renewal fund to accelerate existing Community Wealth building agendas to a regional level. Through enhancing the five key principles of Community Wealth Building this project aims to promote a people-centred approach to local economic development, supporting a fairer society and provide a platform to allow more people to influence and shape their local communities.
