

Joined Up for Young People Forum

Wednesday 24th August 10am-Noon

Theme: Workforce Development

This forum will provide an opportunity to reflect on how the change in working practices post-pandemic will affect young people. We have a mix of speakers and will facilitate a networking opportunity. Finally, we will hand it over to you as providers to share current reflections, discuss challenges and successful approaches, and explore how we can enhance partnership across the Joined Up for Young People network.
