

INTER-AGENCY PUBLIC PROTECTION TRAINING CALENDAR 2022

The Edinburgh Learning and Development Subgroups offer a blended approach to Public Protection training. The approach combines learning through eLearning modules and virtual training. Public Protection eLearning modules have been made a prerequisite to some virtual learning courses including:

- **Domestic abuse: awareness raising + Domestic abuse: supporting victims – a prerequisite to Virtual Domestic Abuse Level 2 and Safe and Together training.**
- **Foetal Alcohol Spectrum Disorder (FASD) – a prerequisite to Virtual NAS and FASD: impact on the developing child.**
- **Neglect eLearning module – a prerequisite to Virtual Understanding Neglect.**

All training material including pre-course reading, presentations and supplementary information can be accessed on Edinburgh's Child Protection Hub via the following link <https://khub.net/group/edinburghs-child-protection-hub/group-home> (registration required).

NHS staff should be up to date with their mandatory Public Protection (foundation) module and Child Protection (advanced) modules.

Approval from NHS line managers is required prior to booking training.
