AWS re/Start

In 12 short weeks you will gain:

Essential experience | Technical knowledge |
Professional Experience | Communication Skills

The AWS re/Start boot camp will teach you everything you need to become a Cloud Support Practitioner - from the technical skills and coding languages to the key employment skills that will help you excel in the job. At the end of the programme Generation will connect you with employers and support you through your application.

From Netflix to Facebook, Reddit to the BBC, millions of companies worldwide use Amazon Web Services and the Cloud to power their businesses. As a Cloud Practitioner, you'll support businesses to find cloud-based solutions for their challenges.

What you'll learn:

- How cloud computing works
- How to use different computer operating systems
- How to use different programming languages

You'll **become more employable**. 85% of our graduates are employed within 3 months of graduation. We'll help you stand and out in your applications with 1-1 career coaching, soft skills workshops, practice interview sessions and a **qualification to add to your CV!**

We'll **support you every step of the way**, with 1-1 mentorship support, a community class of 20-25 peers, a dedicated Generation staff team and a network of 700+ alumni who want to see you succeed.

Get hired! Generation will **connect you with employers** who are ready to hire people with your exact skill-set.
